

TYGUM PARK

Draft Master Plan

5.0 LANDSCAPE OPPORTUNITIES

5.1 Regional context plan

Council and the community have talked for some years about upgrading Tygum Park and an initial funding allocation of \$100,000 has now been provided for the first stage.

A Draft Master Plan has been prepared to guide the future development of recreational facilities within and around Tygum Park. Your feedback is now sought.

The upgrading of facilities at Tygum Park will provide a variety of recreational opportunities for residents in Waterford West and the surrounding area.

The park will become the focus for recreation in Waterford West with play areas and recreation facilities for cyclists using the regional cycle network. The upgrades are designed to improve the environment with the treatment of stormwater entering the lagoon and rehabilitation of key vegetation areas.

For more information, contact Council on 3412 5630 or see www.bangthetable.com/logan.

In summary, the Draft Master Plan provides for:

- Universal access to trails around the lagoon
- Links from Tygum Park to Henry Jordan Park
- Links through Tygum Park, and from Kingston Rd to Tygum Lagoon
- Allows views into the site from Kingston Rd
- Provides opportunities for use of the park by surrounding schools and retirement village residents
- A new jetty, and storage facility for model boat club users
- More parking, landscaping and artworks
- A lookout near Melliiodora Rd, overlooking the lagoon
- Improved security and surveillance around the park.
